

Dear Candidate,

We will begin accepting application through the ERAS program (<http://www.aamc.org/programs/eras/>) beginning on November 15<sup>th</sup>. We will be accepting applications through mid January. At that time we will pull the applications and review to determine which applications meet the criteria for an interview. We plan to schedule the interviews two days in February.

After the interview is complete, we use the NRMP matching program for our application process.

We will be accepting 2 fellows a year. Our fellowship program runs from 1 July to 30 June each year.

VISA information: Our program sponsors candidates with Visas as long as the Visa does not expire prior to the end of the program.

If you have any more questions for me, please feel free to email or call me. If I am not at my desk, please leave a message.

Have a great day!
