Project Nurture

Nurturing Idea for March

Help Your Toddler Sleep through the Night

Make sure bedtime is a quiet time. Take her outside during the day for play and fresh air, even on colder days. Consider shortening his naps. If she wakes up during the night, don't play. Reassure her that she's ok, keep the lights off, and keep it quiet. Also, keep in mind family stresses that may contribute to irregular sleep.

Mostly, remember that he will soon settle into a regular sleep pattern, and you both will be getting a good night's sleep. *Thanks to Scholastic*

What is Project Nurture?

Project Nurture is KIDS FIRST's Infant Mental Health Program. Our goal is to promote the social and emotional well-being of KIDS FIRST infants, toddlers, and families through secure and nurturing relationships.
